

Green Competences for Green Jobs

GT-003.04 Training Module on Green Basic Competences

A greening economy requires a workforce with adequate green skills. Based on a given framework structure participants will be introduced to a training module on cross-occupational green basic competences which either can be integrated into all TVET programmes or treated as a separate module.

Learning outcomes

On completion of the training, participants

- are able to name an example of a cross-occupational training module on green basic competences
- are able to describe relevant teaching materials
- are able to discuss appropriate assessment methods

Contents

- Cross-occupational green competences in the fields of efficient use of energy and resources, waste management as well as dealing with hazardous substances
- Introduction to an exemplary training module's framework structure

Formats

Virtual format learning implemented with following methods:

- Online seminar
- Individual work
- Cooperative work
- Online activities

Language

- English
- Upon request: other languages with interpreters

Target groups

- Persons with deeper interested in the topic "Green Competences" with focus on Green TVET
- TVET teachers and in-company trainers
- TVET experts
- TVET management staff
- Decision makers from relevant ministries, authorities and institutions
- Private sector stakeholders (from all occupational fields)

Participation requirements

- Participants are recommended to have attended the course "GT-003.02 Green Economy, Green Jobs and Green Competences" and "GT-003.03 Development of Green Competences"

Duration

- 8 hrs (2 days)

Certificate

The participants will receive a certificate of participation after successful completion of the course.
